

AN INVITATION TO JOIN THE NEBRASKA COMMITTEES OF CORRESPONDENCE.

What are the Committees of Correspondence?

Nebraskans now face a situation very similar to what American colonists faced in the 1700s. To resist and counter an oppressive form of government that levied high taxes and imposed burdensome regulations, colonists mobilized in Committees of Correspondence. We believe that taxpayers in Nebraska should and can mobilize in contemporary Committees of Correspondence in all 93 Nebraska counties. This initiative is a project of NE Taxpayers for Freedom.

What were they?

- Groups of individuals organized by government
 - Coordinated written communication outside of colony
 - Lead the way towards coordinated action and decision-making between the colonies.

Committees of Correspondence objective:

To lobby state senators on crucial tax, spending, and regulation issues and resist and counter the trend toward socialism in our Legislature and state.

Who can participate?

Any taxpaying citizen of Nebraska who wants to stop our state from gravitating into socialism.

When are committees organizing?

Now and continually until we create a committee in all or most NE counties.

Where are committees organizing?

Statewide in every rural and urban locality.

Committees of Correspondence

- Committee—organized group of people
- Correspondence—communicate

The Committees of Correspondence were formed by Samuel Adams to speed communication between colonies concerning what was happening with the British. Letters were sent from one committee to another by way of "express riders" on fast horses. One was a silversmith named Paul Revere.

Samuel Adams: Founder of 'Committee of Correspondence'

How are committees organizing?

Through individual initiative and communication in every NE county.

How do the committees function?

Through an ongoing network system of email alerts, seminars, and lobbying materials.
